

Hello!

May first finds Ian, Caiti and me already slathering on the sunblock and astounded by the daily growth of our plants in the greenhouse and in the fields. I have just a few tidbits of information as we move into May.

Start of Pickups Mark your calendars! We are still on track for CSA pick-up to begin on June 1 for Tuesday pickups and June 5 for Saturday pickups. We will confirm this as the date gets closer. If you just cannot wait until then, check out Daloz Farm at the Peterborough Farmer's Market, which begins Wednesday May 19th from 3-6 in Depot Square.

Demonstrations Back by popular demand- chef and member Nori will be helping us all with creative vegetable eating demonstrations during Saturday pickups. Even if you are not a Saturday pickup, consider signing up for Nori's email list, on which she sends recipes and nutritional information about a current vegetable. Send an email to NoriGroups@ragnorok.net to sign up. And not to be left out, Tuesday pickup just got more exciting with juicing demonstrations as the season allows by member and experienced juicer Margit.

Bread We were all astounded by the array of fantastic baked goods Jen and Owen Landis brought to our open house a few weeks ago. Attached to this email is the order form for either signing up for a season or a one time order of bread or baked goods. If you want bread waiting for you on your first pickup day, you need to call Jennifer and Owen at least two days ahead of time - (603) 721-1752. Anytime thereafter order forms can be left here when you pick up your vegetable share.

Membership We are still looking for ten more members, if you know a likely candidate, let them know how much you are looking forward to a season of the freshest, healthiest vegetables around.

Website Did you know the we have a farm website? I have been working to bring it up to date, so if you haven't visited in a while, check out www.dalozcsa.org.
